Agenda

- 18:30 ● Door opens - Welcome
- 18:45 ● Talk #1 From AI-Generated Code to Production Execution + Q&A
Jana Chowdhury & Olga Vetter
- 19:20 ● Pizza Break
- 20:00 ● Talk#2 Operating AI Agents in Production: Execution, Observability, and System Boundaries+ Q&A
Dr. Jana Stucke
- 20:40 ● Wrap-up & Networking

We're AI engineers, researchers, and tech leaders solving real-world production AI challenges.

We run regular techie-to-techie meetups to share hard learned lessons and what actually works when shipping AI at scale.

What we value?

- connecting technical stories with real impact
- making AI development clear and easy to follow
- cross-domain collaboration

Get involved:

- share your lessons learned & challenges
- network with inspiring developers
- co-create our GitHub Repo

Grow with us:

- start new formats
- start new local chapters
- share the knowledge
- expand your skill set

The 9-part blueprint

Module 1: Context – From Data Chaos to Clarity

Module 2: Behavior – Explicit, Inspectable Planning

Module 3: Execution – Deterministic and Reliable Operations

Module 4: State – Persistence for Resilience

Module 5: Collaboration – Human Oversight by Design

Module 6: Observability Bus

Module 7: Security – A First-Class Architectural Layer

Module 8: Learning & Adaptation

Module 9: Scaling, Performance & ROI

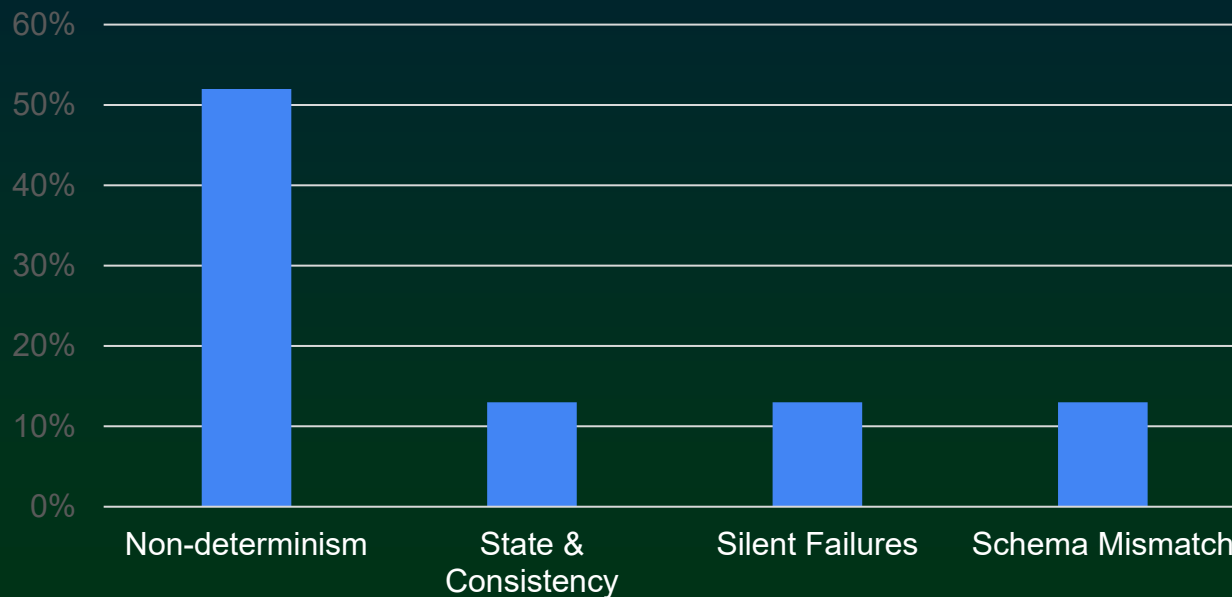

Message:

Reliable AI is system architecture.

Questionnaire Insights 1/3

Next Module

State - Persistent, Consistent, and Controlled

- Memory
- long-running workflows
- state integrity

Thank you

Let's stay connected and keep
building together
